BRITISH MEDICAL BULLETIN Volume 65 2003

Imaging neuroscience

Clinical frontiers for diagnosis and management

Scientific Editors: Richard Frackowiak & Terry Jones

v Colour plate section

1 Introduction
Richard Frackowiak, Terry Jones

3 Techniques for imaging neuroscience
Robert Turner, Terry Jones

21 Attention and its disorders
Darren R Gitelman

35 Emotion and its disorders
Hugo Critchley

49 Executive functions and their disorders
Rebecca Elliott

61 Advanced brain imaging procedures and human memory disorder
Narinder Kapur, Michael D Kopelman

83 Pain mechanisms and their disorders
AKP Jones, B Kulkarni, SWG Derbyshire

95 Language systems in normal and aphasic human subjects: functional imaging studies and inferences from animal studies
Richard J S Wise

121 Neuropathological imaging: *in vivo* detection of glial activation as a measure of disease and adaptive change in the brain
Richard B Banati

133 Magnetic resonance-based techniques for the study and management of multiple sclerosis
Marco Rovaris, Maria A Rocca, Massimo Filippi

145 Progress in imaging stroke: emerging clinical applications
JV Guadagno, C Calautti, J-C Baron

159 Dementia and ageing
Catriona D Good

169 Neuropharmacology and drug development
Antony D Gee

179 Epilepsy and surgical mapping
Mark P Richardson

193 Modulating dysfunctional limbic-cortical circuits in depression: towards development of brain-based algorithms for diagnosis and optimised treatment
Helen S Mayberg

209 Addiction
AR Lingford-Hughes, SJC Davies, S McIver, TM Williams, MRC Daglish, DJ Nutt

223 Headache: lessons learned from functional imaging
Arne May

235 Neuroimaging of animal models of brain disease
Mark F Lythgoe, Nicola R Sibson, Neil G Harris

259 Imaging genomics
Ahmad R Hariri, Daniel R Weinberger
